DETAILED ACTION

Information Disclosure Statement

1. Regarding the IDS filed 04-29-2002, the references having a line drawn therethrough, namely Cite No. 1 and Cite. No. 5, represent priority documents and thus are not considered prior art.

Drawings

2. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

- 3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

 The form and legal phraseology often used in patent claims, such as "means," should be avoided.
- 4. As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:
 - (a) TITLE OF THE INVENTION.
 - (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
 - (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
 - (d) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or

REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.) (e) BACKGROUND OF THE INVENTION.

- (1) Field of the Invention.
- (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (f) BRIEF SUMMARY OF THE INVENTION.
- (g) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (h) DETAILED DESCRIPTION OF THE INVENTION.
- (i) CLAIM OR CLAIMS (commencing on a separate sheet).
- (j) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (k) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Claim Objections

5. Claims 4, 6, 10, 13-16, and 26 are objected to because of the following informalities: claim 4, line 2 - change fourth recitation of "the" to --a--; claim 6, line 3 - before "means" insert --the--; claims 10 and 13-16 - delete "or holes"; claims 13 and 14, line 2 - change "a" to --the--; and claim 26, line 2 - after "of" insert --the-- and delete "according to claim 1". Appropriate correction is required. Note: claim 25 is being treated as a multiple dependent claim.

Claim Rejections - 35 USC § 112

- 6. Claims 17 and 19-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 7. The following phrases lack antecedent basis:

```
claims 19 and 20, line 2 - "the containment ring"; claim 22, line 2 - "the support ring"; claim 23, line 2 - "the seal"; and
```

claim 28, lines 1-2, "the innermost and outermost radial sealing rings".

- 8. Regarding claim 17, lines 2-3, the phrase "conventional operating conditions" is unclear.
- 9. Regarding claim 24, line 4, it is unclear which elements represent the "secondary lips".
- 10. Regarding claim 25, the examiner has assumed the claim to be an independent claim, and therefore the phrase "the radial sealing ring" lacks antecedent basis. Further, the phrase "any one of the preceding claims" should be replaced with the necessary radial sealing ring structure.

Claim Rejections - 35 USC § 102

11. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 12. Claim 24, as best understood, is rejected under 35 U.S.C. 102(b) as being anticipated by the admitted prior art (APA).
- 13. Figure 1 of the instant application represents the admitted prior art. The APA discloses a radial sealing assembly comprising: a pair of primary sealing lips, namely a lip 2 disposed on the inner circumferential face and a lip 3 disposed on the outer circumferential face; and a containment ring 5 connecting the lips.

Allowable Subject Matter

14. Claims 1-16 and 18 are allowed.

Art Unit: 3677

15. Claims 17, 19-23, and 26-28 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the

limitations of the base claim and any intervening claims.

16. Claim 25 would be allowable if rewritten or amended to overcome the rejection(s) under

35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

17. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
